

When Can I?

Don't go crying
in the morning
That's what I tell myself
My emotions everywhere
Thinking of you
Right Next to me
Don't go searching
for that someone
Hoping I'll be the one
Will you
take this time to hear this song
Things I want to ask
Whenever I go to sleep
I just feel
lonely as could be
I just
want You to believe
that I
will be all that you need

When can we
never be apart

When can I
hold you in the dark

You got my heart and soul
you make me feel so whole

When can I
kiss you in a crowd /gown

With me
I want you to feel proud

If you allow
My love for you will be loud

(Last Verse)
When can I... When can I... When can I.
Hold you late at night

With me
We'll watch the morning light

If you allow
My love for you will be loud
