

Birthdays

Intro

Hurt so much to say (这)

Verse #1

To you it was just a mistake

bullets were with you made the choice and you took aim.

you did it with control

Calculate and cold.

Was I your greatest foe?

Like I have no soul

Kill me why would you,

Like someone who you never knew

What truly kills me,

is all my trust in love is now gone.

My passion has been drained,

there's just no turning back .

A Place

that's alongside me (is) an empty space.

Chorus

Is Like being Born,

with no Birthdays at all

Why do you want me to fall?

Don't you think I can tell?

There are few spaces in my heart,

and yet I let you in.

By blood and the years brings

me to tears.

Is Like being Born,

with no Birthdays at all

Why do you want me to fall?

Don't you think I can tell.

There are few spaces in my heart,

and yet I let you in (with me)

By blood and the years brings

me to tears.

How should I go on?

2nd Verse

**Only once a year
we celebrate that day,
for someone to feel special
with them the world's a better place
and yet you can't give... that day.
Made it all about you (to)
Make someone sad on their day.
No mistake, you can have the cake.**

Chorus

**is Like being Born,
with no Birthdays at all
Why do you want me to fall?
Don't you think I can tell.
There are few spaces in my heart.
but I still let you in with me.
By blood and years
just lead me to tears.
How should I go on?**

Bridge

Can't talk or walk before you crawl.

(Your) Goal is to make someone feel small (or)

Act like a know it all.

To celebrate someone's

Birthday like is yours

When you can't make a simple call

So Happy to see,

love one's brawl.

Stand tall when one fall.

Chorus

Is Like being Born,

with no Birthdays at all

Why do you want me to fall?

Don't you think I can tell?

There are few spaces in my heart,

but I still let you in

By blood and years

just lead me to tears.

Conclusion

How are you now?

Are you happy what you become?

To hurt close ones because of hate

a mistake from the start

There are no grey spaces... in my heart.

You will always play a part.

By blood and years

lead me to many tears.

(like) no birthdays at all

No Birthdays at all
