

My Christmas song

Intro

Is that time of year when there's just nothing wrong.

Time for cheers and great sing-a-longs

No one's sad we all can grow.

There's no "I". we're united as all.

But then in a few weeks at a Drop of a ball

We all go back to all of our flaws.

and the kindness is back on pause.

Chorus

Did you give it your all? To know what is wrong.

Can't you see? You are making greed so damn strong.

This Christmas I wrote this song.

I have seen it for too long.

A Selfish World will never see what's wrong.

Verse

I see the ornaments and Santa's smiling face.

Singing songs from Jingle Bells to Deck the Halls

But you're mad? When you can't have it all?

and happy standing tall when someone fall.

In a few weeks after the Drop of that ball

I hope we can see all of our flaws.

and give each other that applause.

Chorus

Did you give it your all? To know what is wrong.

Can't you see? You are making greed so damn strong.

This Christmas I wrote this song.

I have seen it for too long.

Selfish World will never see what is wrong.

Bridge

Do we know what it takes to be whole?

Restless souls looking for false hope.

We have been told yet this world is still cold.

Each year our hearts should be our home.

To see Christmas lights till we're old.

Final Chorus

Did you give it your all? To know what is wrong.

Can't you see? You are making hate so damn strong.

This Christmas I wrote you this song.

I have seen it for too long.

Selfish You will never see what is wrong.

This is my Christmas song. (End with guitar interlude)
