

"Stay"

You told me you were leaving the country today.

Did not know what to say.

Hope to convince you to **stay**.

Your happiness is what matters to me.

I hope you will find peace

and all your dreams will come true.

"A dream you dream alone is just only a dream".

But a dream you dream together is reality.

I pray that you will see what I can see in you.

Only then I can let you go.

This world can be so unkind

Hope our lives would align

What can I say but I just hope that you will **stay**.

I just wish there is more time.

Want to take care of you till I die.

Just want to give what you need.

To be happy as you can be

By your side when you try

Holding you when you cry

What can I say but I just hope that you will ***stay.***

I just wish there is more time.

Want to take care of you till I die.

Just want to give what you need

To be happy as you can be.
