

"Trust"

I hate you for what you are
You can't handle the worst of me
Memories are tides of time

but loved you for what you're not.
You don't deserve the best of me.
Just taking our youth with chime.

Love is rare, and life is strange

Nothing last and people change.

All the things you have done
Love and work are all the same
Never fooled anyone

just look what you have become.
Aim to please, is all a game.
Fooled yourself and now you're done.

Love is rare, and life is strange

Nothing last and people change.

Chorus

Good but not an angel
Just a small fish in a Deep Blue Sea
Success makes so many people hate.

Sin but not the devil

To stand the test of time
Things fall apart than things come as one.

Will see you on the other side.

Life is about finding that ***Trust.***

I hate you for what you are

but loved you for what you're not.

You can't handle the worst of me

You don't deserve the best of me.

Memories are tides of time

Just taking our youth with chime.

Love is rare, and life is strange

Nothing last and people change.

Chorus

Good but not an angel Sin but not the devil

Just a small fish in a Deep Blue Sea
