

Aspiration 1976 浪子心聲 by 許冠傑

Into

Do we know who we are.

We all want to be that star.

A dream that is so far.

If we don't we all feel that scar.

Be the prince. Not the frog

Be the light. Not in a fog

Fame and Fortune make us proud.

We want cheers from that big crowd.

Chorus

We all can see those in need.

We all can't see what lives about.

If you care, there's doubt.

With money there's clout

We're born under the same clouds.

To care and share should be loud.

Chorus

We all can see those in need.

We all can't see what life is about.

Let's look around now.

how much can we allow?

Why care what we all got.

We should all lead with our hearts.

Ending

We're born under the same clouds.

To care and share should be loud.
